# of Pumps/Day	1	2	4
Use-Up Rate	4-5 months	2.5-3 months	36 days

Primary Benefits

C+ Correcting Complex 30%® with 30% THD (Tetrahexyldecyl Ascorbate) plus our patent-pending MelaPATH® Technology is one of the only Vitamin C products designed to combat free radicals before they damage the skin whilst correcting existing skin damage and promoting long term skin health.

Who Benefits

- Anyone seeking superior antioxidant benefits
- Suitable for:
 - All skin types - dry, oily or combination
 - Mature skin
 - Dull, uneven skin tones
 - Pre- and Post-Procedure Skin*

Points of Difference

- Patent-pending MelaPATH® Technology
 - Brightens and evens skin tone
 - Supports the skin's natural production of Vitamins C & E
 - Improves the appearance of fine lines
 - Defends and corrects the skin-damaging effects of free radicals generated by Urban Dust and Blue Light (High-Energy Visible Light)
- Contains prebiotic technology which supports the skin's Microbiome to promote overall long-term skin health

Key Benefits

- Reveal brighter, more radiant skin
- Achieve a more even skin tone
- Lock in younger, healthier looking skin
- Discover improved overall skin appearance

How to Use

Use morning and evening after cleansing, but before moisturising. Dispense one pump into palm of hand and apply evenly to the face, avoiding the eye area.

*Revision Skincare® products are not intended for use on broken skin and should only be used once skin has fully healed following a procedure.

C+ Correcting Complex 30%®

KEY INGREDIENTS

Key Ingredient	What It Does
<p>MelaPATH® Technology, a synergistic blend of powerful antioxidants</p> <ul style="list-style-type: none"> THD Ascorbate Acetyl Zingerone Hydrolyzed Eruca Sativa Leaf Plantago Lanceolata Leaf Extract 	<ul style="list-style-type: none"> Brightens and evens the appearance of skin tone Helps to support the skin's natural production of Vitamins C and E Improves the appearance of fine lines Defends and corrects the skin-damaging effects of free radicals generated by Urban Dust and Blue Light (High-Energy Visible Light)
Sodium Carboxymethyl Beta Glucan	<ul style="list-style-type: none"> Prebiotic – a natural polysaccharide of repetitive glucose units, coming from yeast Helps to stimulate skin's natural defences, helps shield the skin from environmental damage and helps restore the skin's moisture barrier These features are linked to promoting overall long-term skin health
Diglycosyl Gallic Acid (DGA)	<ul style="list-style-type: none"> Is cleaved by the enzymes in the Microbiome to release Gallic Acid into the skin for additional brightening benefits
